DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claims 1, 2, 5-24 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 2, 5-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 discloses transmitting a first sub-frame associated with a first frame using a first wireless resource; transmitting a first sub-frame associated with a second frame using the first wireless and a second wireless resource if an acknowledgement message associated with the first sub-frame is received; transmitting a second sub-frame associated with the first frame using the first wireless resource and transmitting the first sub-frame associated with the second frame using the second wireless resource if a non-acknowledgement message associated with the first sub-frame is received.

It is unclear whether the first sub-frame that is received is associated with the first or second frame, and this makes the claim indefinite.

Claim 14 discloses transmitting an acknowledgement message or a non-acknowledgement message indicating whether a first sub-frame associated with a first frame was

received using a first wireless resource; receiving a first sub-frame associated with a second frame using the first wireless resource and a second wireless resource if an acknowledgement message is transmitted; and receiving a second sub-frame associated with the first frame using the first wireless resource receiving the first sub-frame associated with the second frame using the second wireless resource if a non-acknowledgement message is transmitted. It is unclear how this is carried out.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
